# CAMBRIDGE SEMINARS

## *in* ONCOLOGY

**Sackler Lecture Theatre, Level 7, CIMR**

The Cambridge Seminars in Oncology series, hosted by the MRC Cancer Unit, covers a wide range of topics including clinical, laboratory and translational aspects of cancer.

The talks usually take place on the first Tuesday of the month in the Sackler Lecture Theatre, Level 7, of the Keith Peters Building (Cambridge Biomedical Campus).

Please visit [talks.cam](http://talks.cam) for full details of the seminar series and for information about other cancer related talks in Cambridge.

### Seminars in 2019

27 Feb **Professor Xiang Zhang**

Baylor College of Medicine, Houston

*'Multi-dimensional cancer-immune cell interaction during metastasis'*

Host: Dr Sakari Vanharanta

9 April **Dr Walid Khaled**

Group Leader, Department of Pharmacology, University of Cambridge

*'Mammary epithelial cell fate and tumour initiation at the single cell resolution'*

Host: Professor Ashok Venkitaraman

7 May **Professor Ilaria Malanchi**

Tumour-Host Interaction Lab Francis Crick Institute

*'New protagonists of the tumour microenvironment'*

Host: Graduate Student Society

11 June **Professor Nicola Valeri**

Gastrointestinal Cancer Biology and Genomics Team Leader, Institute of Cancer Research and The Royal Marsden NHS Trust

*'Next-generation biopsies in gastrointestinal cancers'*

Host: Professor Rebecca Fitzgerald

10 July **Professor Julio Saez-Rodriguez**

Professor of Medical Bioinformatics and Data Analysis, Heidelberg University, Medical Faculty, Heidelberg

*'Combining omics data and biological knowledge to understand and treat cancer'*

Host: Dr Christian Frezza

3 Sept **Professor Nils-Göran Larsson**

Senior Consultant, Department of Medical Biochemistry and Biophysics (MBB), Karolinska Institutet

*'Treatment of cancer by inhibition of mtDNA gene expression'*

Host: Dr Christian Frezza

1 Oct **Professor Albena Dinkova-Kostova**

Professor (Teaching and Research), Jacqui Wood Cancer Centre, Division of Cellular Medicine, University of Dundee School of Medicine, Dundee

*'Activation of transcription factor Nrf2 as a strategy to restore the cellular redox and protein homeostasis'*

Host: Dr Christian Frezza

3 Dec **Professor Florian Greten**

Institute for Tumor Biology and Experimental Therapy, Frankfurt

*‘Cell plasticity in colon carcinogenesis’*

Host: Graduate Student Society

### **Seminars in 2020**

7 April **Professor Elisa Oricchio** (CANCELLED)

EPFL, Zurich.

*‘Cancer genomics: from chromatin structure to new therapeutic targets’*

Host: Sakari Vanharanta

5 May **Professor Luca Magnani** (CANCELLED)

Faculty of Medicine, Dept of Surgery and Cancer; Chair in Cancer Adaptation and Evolution, Imperial College, London

Host: Dr Sakari Vanharanta

**Due to the Covid-19 outbreak talks in this series have been postponed for the time being and will resume as soon as practicable. Further updates will be available on our website and through [talks.cam](https://talks.cam)**
